## **PRODUCT DESCRIPTION**

### **2.4GHz digital Wireless Skype phone:**

LB-SP610 Wireless Skype phone is a cordless Skype phone working with Skype-In and Skype-Out through a USB port, and a regular 2.4GHz Wireless Skype phone. When you open the PC using Skype to make internet calls, conference calls, search phonebook, or review caller ID, etc, those function in Skype can be operated by LB-SP610 Wireless Skype Phone.

### **To use Wireless Skype Phone to make/ answer Skype calls :**

When user wants to make Skype-Out call (the internet call to normal telephone number in the world) for saving money, he/she can use LB-SP610 Wireless Skype phone to make Skype-Out. The Skype-Out is subjected to top up on Skype-Out credit.

### **To use Wireless Skype Phone to view Skype contacts while talking away from PC :**

Upon LB-SP610 Wireless Skype Phone link to PC, LB-SP610 Wireless Skype simultaneously interface and display Skype online status while PC is connecting to Skype software. For instances, users add contacts on PC Skype , LB-SP610 dual cordless automatically adds contacts at Phonebook in the same time. User can browse Skype caller ID ( missed calls or the called numbers) either from PC, or from LB-SP610 Wireless Skype phone. When Skype calls come in, your LB-SP610 dual handset will be ringing. You can answer the Skype calls via LB-SP610 dual handset, and you don't have to stay with PC. LB-SP610 dual cordless may call to any Skype contact. If you want to make Skype calls, you can review contacts from dual handset and select the contact and dial out. User may either to sit with PC making Skype calls or SkypeOut (or SkypeIn), or he can play with LB-SP610 by walking around 200 – 300 meters at open side, for most convenience and economic reason.
